To whom it may concern:

I oppose the Draft Memorandum being proposed by the FDA. In particular, I object to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

I take a compounded estrogen replacement that can only be filled by a few limited pharmacies in the country. Not to be able to get that prescription filled would violate my constitutional rights. I would then be forced to take a type of estrogen that goes against what I believe is right for me.

Sincerely,

Maurisa Solomon
